## Points that will influence the way I will practice:

Update on Medicare payment / SGR for 2010.

Changes in coding for urodynamics.

Continue to understand and bill consult.

Review contracts of litho or hospital.

Start PQR1, Join larger group.

Improve participation in web-based directories/marketing.

PA now in Urology and returning to clinical practice so overall increased my awareness of current issues.

Better coding. 10 points of improvement gave me several new areas to focus on. Will add PA or NP.

Improve office efficiency and evaluate more critically source of revenue.

Attention to documentation.

You can't practice financially - DO it well and money will find you.

TUMT will be less profitable. I will order no new catheters in 2009.

Greater efforts toward evidence - based outcomes.

Importance of PQR1's.

## Comments about speakers/course content:

Mr. Smith speaks a little too quickly. (slower, less detail)

Continue socio-economic meeting every year.

**Comments about speakers/course content: (Continued)**

It is what it is - if we don't co-align formally, we can't change it.

More background from Dr. Painter for those who are not experts would be nice. Much of it was over my head.

Either reproduce slides in color or black letters on white as the black background and red letters does not reproduce.

Smith - Boring - Not very practical info.

Continue the great work!

Always love to hear the Painter's.

Very good sessions.

G. Smith needs to go slower or decrease points to cover.

Excellent Form. Very pertinent.

Mark did a masterful overview: politics, data value, economic philosophy, specific action to take, etc.

Greg Smith intelligible, critical legalist for U.S. Dave Penson, learned the benefits of PQR1.

M. Painter, Excellent!

G. Smith, Excellent!

**Recommended topics for future meetings:**

Why avoid the hospital?

Connect ethical coding to optimize reimbursements.

Update on Healthcare Policy.

The true value of the physician owned ASC to the American Patient, The physician, and the payors.
