

EVALUATION SUMMARY

Western Section AUA

Monday, October 26, 2009 - 7:45am - 9:45am

PREP COURSE #1 - Kidney Cancer - Surgical & Ablative Therapy Update

	Scale: = POOR / ADEQUATE / EXCELLENT				
	1	2	3	4	5
PROGRAM OBJECTIVES	Total Pts	# Returned	Total Ave Score		
Review the contemporary indications for surgical extirpative therapies in the treatment of RCC	362	77	4.70		
Describe the various differences between the ablative modalities of the treatment of RCC	362	77	4.70		
Discuss newer controversies in the treatment of the small renal mass and in cytoreductive surgery.	365	77	4.74		

OVERALL EVALUATION

Increased My Awareness/Understanding of the Subject	355	77	4.61
Will Influence How I Practice	340	77	4.42
Helped Me Improve Patient Care	350	77	4.55
Was Educationally Sound and Scientifically Balanced	364	77	4.73
Avoided Commercial Bias or Influence	370	77	4.81

Points that will influence the way I will practice.

I will investigate incorporating cryoblation into my practice.

Cryoablation - likely to use.

CRYO better than RFA.

I'll probably be more aggressive with partial nephrectomy especially in setting of preexisting mild renal insufficiency.

More nephronsparing.

Importance of Renal Sparing.

More of an emphasis on cryoblation therapy.

Higher complications of RFA would prevent me from recommending it.

Consider separate bladder incision for nephroureterectomy.

Better able to describe to patients treatment options and results.

Open partial nephrectomy superior to ablative therapy.

I will better be able to advise pts re: RFA/ Cryo

Advanced knowledge regarding cryo vs. RFA.

Use of drugs.

Doing more biopsies with small names forward.

CRYO seems better than RFA.

Try to promote more partial nephrectomies.

Increase use of PN.

Ischemia time is not as critical as we thought.

PRESENTERS

Benjamin Chung, M.D.			
presenter demonstrated current knowledge of topic	364	77	4.73
Christopher Kane, M.D.			
presenter demonstrated current knowledge of topic	368	77	4.78

Comments about speakers/course content:

Excellent.

Excellent course.

Nicely distilled talks. Both speakers outstanding.

I really appreciate Dr. Kane's very practical approach - His speaking style is very good. Great update. Thanks.

Very good.

Excellent program.

Ben Chung is great!

Pre and post test quizzes great.

Very good.

Both speakers were very good!

Very complete and relevant.

Use more case scenarios to describe current data.

Good job.

Excellent talk.

Organized presentation

Dr. Chung's talk on small renal mass overlapped the other talks!

Both excellent.

Good presentors, knowledgeable.

Very practical and well organized.

Recommended topics for future meetings:

Excellent overview of subject!

Upper tract TCC.

Overall good topic and its presentation.

More of same.

Same-keep updating.
