## Points that will influence the way I will practice:

More appropriate use of prophylaxis and imaging studies.  
 Change current practice-not using prophylactic antibiotics in peds.  
 Change in workup and Rx methods.  
 Less VCUG.  
 Was able to extrapolate some treatment options for my adult pts.  
 More limited radiographic evaluation and followup maybe just as effective in selected population.  
 Increased use of DUSA scanning in evaluation.
