Comments about the meeting overall:

Well done - thank you.

Very good - thank you.

Can't beat John Prince.

Keep the meetings out on the coast.

Excellent meeting.

Great!

I was astounded by how disrespectful people were with their cell phones! You wouldn't think the group needed to be reminded to turn off their ringers or put them on vibrate - but apparently they do. Also not good access to drinking water. Always coffee, tea and lemonade, but minimal water.

Great meeting! Thank you!

Very good. Suggest that both large screens displays the speakers PowerPoint slides since it was occasionally hard to see one of the screens depending upon where the participant sat.

I loved it. Can't wait for next year.

Great as always.

Outstanding meeting - great presentations. Keep up the good work.

Get better laser pointers.

Keep up the good work!

Very well done and organized.

Monterey = ok but a bit tough to get to. President dinner tickets were outrageous - \$135 dinner for non-drinkers? Reasonable prices and value for the other program items.

Great content and meeting.

I just wish there copies of slides of the state of the art lectures.

Need longer expert talks on common types of diseases such as metabolic management of stone disease and less time on robotics.

Monterey, and specifically the Portola Hotel/MCC has been (if not the best) site for the WSAUA Annual Meeting that I have attended. Please request this site in the future.

Very good - no criticism.

Fantastic meeting with good stringent scientific presentations.
