

EVALUATION SUMMARY

Western Section AUA

Sunday, October 26, 2008 - 3:30pm - 5:30pm

Poster Session III: Prostate II/Potpourri

	Scale: = POOR / ADEQUATE / EXCELLENT				
	1	2	3	4	5
	Total Pts	# Returned	Total Ave Score		
PROGRAM OBJECTIVES					
Examine the efficacy of a selective alpha blocker and interaction with phosphodiesterase-3 inhibitors.	732	169	4.33		
Analyze the management and evaluation of testicular pathology.	706	169	4.18		
Appraise different surgical options for BPH.	739	169	4.37		

OVERALL EVALUATION

Increased Awareness of Subject	717	169	4.24		
Will Influence How I Practice	690	169	4.08		
Helped Me Improve Patient Care	692	169	4.09		
Was Educationally Sound and Scientifically Balanced	738	169	4.37		
Avoided Commercial Bias or Influence	726	169	4.30		

Points that will influence the way I will practice

I will complete more path evaluation.

Will re-consider HOLEP.

Use of testicular sparing surgery in infants.

When 10 week testosterone prep is available, will use it.

HOLEP appropriate for all volumes of BPH.

Will improve choices of medical therapy.

Use of testosterone in depressed patients.

Improved ability to counsel patients on surgical management of BPH.

Will do more PVP.

Consider combined TURP with lower vaporization.

Utilization of GYRUS TURP and growth laser for out patient BPH.

Provide better patient information on therapies I don't provide.

Look at PCA 3 for Post Bx.

Attempt laser vaporization of prostate as an outpatient procedure.

Technique of outpatient TURP.

HOLAP before BT for LUTS.

TURP followed by laser.

Preop TRUS before outlet procedure.

Adult adipose stem cells may have role in ED improved.

Ultrasound easy way to document placement of distal stent in bladder.

New information to pass on to patients during counseling.

Holmium laser enucleation appears to be excellent form of treatment.

Laser treatment for BPH.

Moderators					
The moderators guided and enhanced this session.	662	169	3.55		

Comments about moderators:

Good job.

Knowledgeable.

Comments about moderators: (continued)

Excellent commentary and elicitation of discussion.

Excellent.

Nice job of keeping it interesting.

Excellent job.

Nice job keeping the program moving.

Excellent interaction and questions.

Excellent job.

Excellent questions.

No Problems.

No interaction.

Good.

Good job of integrating audience.

Excellent! Kept the presentations and discussion on-time.

Comments about speakers/course content:

Posters were taken down one day early- please adhere to your schedule.

Good job.

Knowledgeable.

Should allow 2 slides for discussion but adhere to it. 1 slide rule was broken occasionally.

Excellent.

A little too much potpourri - should try to group posters a little.

Many good topics.

Continue current quality.

Great presentation by Dr. Humphreys.

Session too mixed up - too many specialties/topics in one setting.

Very concise, practical.

Good mix of urological disease procedure.

Recommended topics for future meetings:

More definitive answers.

More odd-ball cases.
