

**Western Section American Urological Association Scientific Program - October 28-November 1, 2008, Scottsdale, Arizona**

**SUNDAY, OCT. 28, 2007**

DVD Surgi-Session: 8:00 AM - 12:00 PM - Program Planner: Eila Skinner, M.D.

Moderator: TBD

Objectives: At the conclusion of this educational activity, the participant should have the knowledge to: assess techniques for laparoscopic and robotic cystectomy, salvage prostatectomy and simple prostatectomy, apply varied surgical techniques for laparoscopic partial nephrectomy.

SENT		57	Sunday, October 28, 2007	25	Nicholas J. Hellenthal, M.D.	04-01	YES		Incontinent Ileovesicostomy: Long-Term Complications and Outcomes
SENT	YES	58	Sunday, October 28, 2007	26	Inder Perakash, M.D.	04-02	YES		Transrectal Linear Array Ultrasonography Complements Urodynamics and Eliminates Cine Radiation Exposure.

## SUNDAY, OCT. 28, 2007

POSTER SESSION III: Prostate II / Potpourri: 3:30 PM - 5:30 PM - Program Planner: Fred Govier, M.D.

Moderators: Maxwell Meng, M.D. / Joseph Presti, Jr., M.D.

Objectives: At the conclusion of this educational activity, the participant should have the knowledge to analyze the complications of

brachytherapy and cryotherapy, compare various bioinjectable agents for the management of vesicoureteral reflux, and access the ability of

alprostadiol to improve the results of nerve sparing prostatectomy.

## MONDAY, OCT. 29, 2007

POSTGRADUATE REVIEW & EXAMINATION PREPARATION COURSES (PREP-C) - Director of PREP-Courses: John Corman, M.D.

**NO CHARGE TO REGISTERED RESIDENTS OR PHYSICIANS!!!**

PREP-COURSE #4: TRANSPLANTATION/FLUID ELECTROLYTES: 9:30 AM - 11:30 AM

Course Director: Christian Kuhr, M.D.

Objectives: At the conclusion of this educational activity, the participant should have the knowledge to differentiate between changes in volume and concentration disorders, understand the kidneys role fluid and electrolyte homeostasis, define appropriate use of fluid resuscitation during surgery, differentiate between surgical and immunological etiologies for graft dysfunction, define the immunological mechanisms underlying graft rejection, and obtain skills in managing surgical complications of renal transplantation.

## MONDAY, OCT. 29, 2007

(Separate from the WSAUA Program)

CME INDUSTRY-SUPPORTED SYMPOSIA BREAKFAST BY SANOFI-AVENTIS: 11:30 AM - 1:00 PM

RSVP REQUIRED TO ATTEND:

"Chemotherapy of Hormonal Refractory Prostate Cancer."

## TUESDAY, OCT. 30, 2007

(Separate from the WSAUA Program)

CME INDUSTRY-SUPPORTED SYMPOSIA BREAKFAST BY AUXILIUM: 6:00 AM - 7:30 AM

RSVP REQUIRED TO ATTEND: [RSVP to: mminobe@grantdowning.com](mailto:mminobe@grantdowning.com)

"The Impact of Low Testosterone on Clinical Well-being in the Male Patient."

Culley C. Carson III, MD, Rhodes Distinguished Professor, Chief of Urology, University of North Carolina School of Medicine, Chapel Hill, NC

## TUESDAY, OCT. 30, 2007

PROSTATE CANCER: 7:30 AM - 12:00 PM - Program Planner: Martin Gleave, M.D.

Papers are 5 minutes following 2 minute discussion

Moderators: TBD

Objectives: At the conclusion of this educational activity, the participant should have the knowledge to: summarize current status of screening for prostate cancers, including the development of novel molecular markers and diagnostic strategies, utilize appropriate markers and strategies valuable in risk assessment of patients with localized prostate cancer, and review treatment options in the adjuvant setting for men at high risk of recurrence following radical prostatectomy.

LTR STATUS	ACCEPT	PRESENT #	DATE	TIME	PRESENTER	ABST#	Disclosure Rev'd	COMMENTS	PAPER TITLE
PART I: Diagnosis and Prognosis									
SENT	YES	84	Tuesday, October 30, 2007	7:30 AM	Dayne Nelson, M.D.	09-30	YES		The Utility of the Detection of GSTP1 Methylation in Urine as a Biomarker in the Diagnosis of Prostate Cancer.
SENT	YES	85	Tuesday, October 30, 2007	7:37 AM	Ina L. Deras, Ph.D.	09-53	YES		PCA3 Score Corresponds with Tumor Volume but Not Prostate Size, and Can Synergize with other Patient Information for Predicting Biopsy Outcome.
SENT		86	Tuesday, October 30, 2007	7:44 AM	Anthony Woodruff, M.D.	09-32	NEED		Age an Independent Predictor of Clinically Significant Prostate Cancer in a Contemporary Referral Population: A Case for Needle Biopsy in the Elderly.
